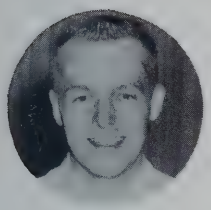
Address of Welcome



Parents, friends, and members of the faculty:

We extend to you a sincere welcome to our Class Day exercises.

As we conclude our four years at Millbury High School, we must look ahead to the future, a future which is certain to present many new problems. But because of the guidance and help of our parents and teachers, we hope that we will be able to accept the inevitable challenges and solve our many problems very readily.

Our days at Millbury High have not been all work, however. We have many memories of fun and amusement. And those of us who have participated in sports will be eternally grateful for the principles of good sportsmanship as well as good citizenship we have learned.

Many thanks to our parents who tolerated our antics and gave us the necessary encouragement in our most trying moments. And to Mr. Beaton and his very capable faculty we want to say, "Thanks a lot."

The Class of 1957 hopes that all of you here today will enjoy our Class Day exercises.

Class Song 1957

Music By Beverly Anderson
Words By Jacqueline Tebo, Judith Howe, and Beverly Anderson

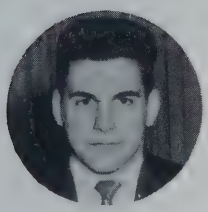
I. Though we're leaving the halls of
our dear Millbury High
We will ne'er forget the treasures
we have known.
She has been to us a guiding light
for the path of life we will slowly
roam,

II. She has taught to us the knowledge
of old;
She has molded our lives into
what they should be.
For to give us strength was
her mission great;
And this she accepted willingly.

Chorus:
Farewell, Millbury High,
We are leaving you now
Never to return from life's
weary road.
When we reach that gate in
the Golden Stairs,
We will think of thee as our
faithful guide.

III. When we've gone out to face the
toils of the world,
When we've planted our feet in
homeland soil,
We will ne'er forget what she's
given us
Through her hours of pleasure
and years of toil.

Omissions and Corrections



While walking down Fifth Avenue, I bumped into a lady. As I apologized, I realized she looked familiar.

"Well, if it isn't..., but it is...! Judy Howe, how are you? You've changed, but I guess it's because of your new shag haircut. I'm so glad to see you. I wanted to congratulate you on your fine book Cry, Cry, Cry, which was selected as Book Of The Month."

I wanted to talk to Judy longer, but she had an appointment. I reluctantly said good-by and watched as a fuchsia Cadillac came to pick her up and whisk her away.

To Joyce Stewart,
Who is so neat,
We give this perfume,
To keep her sweet.

Class History

Tomorrow will be the turning point in the life of each member of the Class of 1957, for tomorrow we shall step into the world on our own. Today, however, let us review our four years of high school.

Fellow students, do you remember that first day you entered the door of Millbury Memorial High School? That was the first of many "firsts" for our class. We were the first to spend four years in the new high school, and the girls were the first to study Home Economics.

We all got lost and had difficulty with our lockers that first day, but we did not mind too much because even the seniors were confused and had to ask directions.

Within a month we had our first class meeting, and the following were elected class officers: Sandra Hayes, president; Beverly Anderson, vice-president; Janet Chevalier, secretary; Jack Alex, treasurer; Jack Alex and Sandra Hayes, class captains.

In boys' sports we were represented by only a few. John Sweet and Jack Alex were the members of the football team. Jack Alex, Paul Savageaux, Robert Davis, and Roland Bernier took part in basketball. Baseball welcomed spring and Roland Bernier, Jack Alex, and Paul Savageaux. Ronald Giroux was the only freshman on the track team.

The girls really made a fine turn-out for the hockey team. The following participated: Janet Chevalier, Heidi Krumsiek, Mary Holland, Aldona Dubickas, Eileen Tift, ----Gaulin, Mary Cullina, Jacqueline Tebo, Mary Boire, and Kay O'Hara, with Jane Brunell as assistant manager. Mary Boire, Sandra Hayes, and Betty Schunmann played basketball; and softball gained one player, Pat Kelly, and an assistant manager, Eileen Tift.

Janet Chevalier and Nancy M. Maynard were chosen as the freshman cheerleaders.

Our members of the Student Council were Sandra Hayes and Robert May. Because we were shy, we did not join many organizations; yet the class was well represented on the Reflector staff by Sandra Hayes, Janet Chevalier, Aldona Dubickas, Jack Stockhaus, Mary Cullina, Joseph Taylor, Judith Howe, Donald Putis, and Beverly Anderson.

There were several talented freshmen. Grace Konkol, John Sweet, Paul Little, Jack Stockhaus, and Beverly Anderson joined the Talent Group; and Carol Provencher, Susan Hooper, Ronald Giroux, Fred Molloy, Nancy M. Maynard, Gail Morin, Jack Stockhaus, Allan Marble, George Adams, Harold Wood, Patricia Kelly and Harry Maderosian were members of the Band.

Janet Chevalier and Jacqueline Tebo took part in the school play, "My Little Margie".

At last summer arrived and we all went our separate ways. But we did not vacation long for the summer flew by, and before we knew it September was upon us again.

As sophomores we were a little "cocky", but this we learned was the "wise fool" stage.

At our first important class meeting we elected officers. They were Jack Alex, president; Mary Boire, vice-president; Beverly Anderson, secretary; Shirley Krasinski, treasurer; and Thomas O'Connor, class captain.

In the fall sports we were really strong. John Alex, Philip Arsenault, Leonard Dattis, William Ellis, David Green, Robert Grenier, Richard LeClair, James Rhodes, Paul Savageaux, Francis Sestito, John Sweet, and Robert Vaillancourt were members of the football team; and Mary Holland, Mary Boire, Janet Chevalier, Mary Cullina, Aldona Dubickas, Maureen Fink, Sandra Hayes, Heidi Krumsiek, Kathleen Paille, Lorraine Salois, Jacqueline Tebo, Dorothy Vostok, Eileen Tift, and Nancy M. Maynard were members of the hockey team. Nancy F. Maynard was assistant manager.

This year more students joined the various clubs. Mesdemoiselles Eileen Tift and Dorothy Vostok and Messieurs Raymond Tremblay and Robert Vaillancourt attended the French Club. Every other week Heidi Krumsiek, Sandra Hayes, Mary Holland, Sandra Lowes, Shirley Krasinski, Janette Herman, and Francis Sestito went to the Biology Club meetings.

The Band members were Mary Cullina, Ronald Giroux, Mary Boire, Janette Herman, Carol Provencher, Fred Molloy, and David Green. Talent Group was supported by Nancy M. Maynard, Jacqueline Tebo, Janet Chevalier, Maureen Fink, Sandra Lowes, Kathleen Paille, Lorraine Salois, Mary Boire, Rosalie Cammuso, and Beverly Anderson.

The Student Council quartet consisted of Jack Alex, Mary Boire, Robert Grenier, and Sandra Hayes. In March, 1955, Robert Grenier was the school's representative at Student Government Day.

Both basketball teams had a good season. The sophomore boys who played were John Alex, Leonard Dattis, Robert Grenier, Robert Davis, Ronald Giroux, Joseph Magdziarz, Richard Pierce, James Rhodes, Paul Savageaux, and Robert Vaillancourt. The girls won every game that season. Our members were Mary Boire, Maureen Fink, Sandra Hayes, Mary Holland, Heidi Krumsiek, Betty Schunmann, and Rosemary Simpson.

The Reflector thrived with twenty-six sophomores on the staff.

Spring welcomed baseball, softball, and track. Sophomores on the baseball team were Jack Alex, Philip Arsenault, Robert Grenier, Richard Pierce, and Paul Savageaux. The softball duet consisted of Pat Kelly and Mary Boire, with Eileen Tift as manager. The track trio was composed of Jack Alex, Robert Grenier, and John Sweet.

On April 1, 1955, Jacqueline Tebo, Sandra Hayes, and Beverly Anderson were members of the play, Men Are Like Street Cars.

The following May we elected Mary Boire, Robert Grenier, Lorraine Salois, Paul Savageaux, and Beverly Anderson to be responsible for the selection of our class rings, and before we knew it summer was with us again.

With our class rings proudly on our fingers, we came back to school as juniors.

During that year we seemed to calm down, not only because we were upperclassmen, but because our subjects became a little more difficult.

We had our first class meeting and elected the same officers.

The football team had a good year. We were very proud of Stuart Anderson, Jack Alex, Robert David, Leonard Dattis, Philip Arsenault, Robert Grenier, James Rhodes, Paul Savageaux, Robert Faillancourt, and Richard Pierce.

There was a strong force on the hockey team also. Our representatives were Mary Holland, Mary Boire, Janet Chevalier, Aldona Dubickas, Maureen Fink, Sandra Hayes, Rosalie Cammuso, Eileen Tift, Jacqueline Tebo, Lorraine Salois, Kathleen Paille, and Heidi Krumsiek. Nancy F. Maynard was manager, and Beverly Anderson was assistant manager.

As juniors we now had girls working in the office and in the library. More people took part in the different clubs among which were Science Club, French Club, Dramatic Club, and Debating Club.

Sweet notes and sour notes could be heard from the Glee Club, Band, and Talent Group, but we know the juniors produced only sweet ones. Our members were Kathleen Paille, Beverly Anderson, Jacqueline Tebo, Janet Chevalier, Judith Howe, Maureen Fink, Lorraine Salois, Mary Boire, Sandra Hayes, Sandra Lowes, Anne Brodeur, Carol Provencher, Joyce Beauchamp, David Green, Fred Molloy, Ronald Giroux, and Mary Cullina.

Once again our basketball players paced up and down the gym floor. The participants in boys' basketball were Eugene Kasavich, Jack Alex, Robert Davis, Joseph Magdziarz, Paul Savageaux, and Thomas O'Connor. There were only a few girls on the basketball team, and they were Sandra Hayes, Maureen Fink, Aldona Dubickas, and Heidi Krumsiek, with Sandra Lowes as assistant manager.

The Reflector was thriving and we were fortunate in having on the staff Mary Cullina, Kathleen Paille, Sandra Hayes, Jacqueline Tebo, Maureen Fink, Lorraine Salois, Judith Howe, Beverly Anderson, Janet Chevalier, Henry Plaud, and Eileen Tift.

Sandra Hayes, Mary Boire, Jack Alex, and Beverly Anderson were the junior members of the Student Council.

At a special assembly Madeline Credit, Jacqueline Tebo, and Sandra Hayes were awarded Horace Mann pins.

Members of the baseball team were Philip Arsenault, Jack Alex, Paul Savageaux, Robert Grenier, and Richard Pierce. The softball team consisted of Heidi Krumsiek, Mary Boire, Janice Young, Madeline Credit, Janette Herman, and Carolyn Whitten, with Eileen Tift as manager. More boys went out for track. Among them were Jack Alex, Ellis Russell, Ronald Snelling, Philip Arsenault, and John Sweet.

The Junior Prom was the big event of the year. The theme was a summer garden, and credit was given where credit was due to the prom committee and Miss Scarpaci.

We all departed in June, knowing that the next time we were together we would be seniors.

In the fall we started our most important as well as our most active year. At last we were seniors!

The football team had a very good year. The varsity players were Jack Alex, Robert Grenier, Philip Arsenault, Stuart Anderson, Leonard Dattis, and James Rhodes.

Our representativeson the hockey team made a fine showing. They were Barbara Perry, Sandra Lowes, Beverly Anderson, Mary Boire, Eileen Tift, Mary Holland, Kathleen Paille, Janette Herman, Aldona Dubickas, Heidi Krumsiek, Maureen Fink, Janice Young, Janet Chevalier, and Jacqueline Tebo.

At a class meeting early in the year Beverly Anderson, Jack Alex, Sandra Hayes, Jacqueline Tebo, and Ulla Stadin were selected as the Photography Committee. They chose Mercer as our class photographer.

Another class meeting was called, and we were asked to give serious thought to our choices for the Aftermath staff. They were Sandra Hayes, editor-in-chief; Beverly Anderson and Jack Alex, assistant editors; Ulla Stadin and Jacqueline Tebo, associate editors; Judith Malo, business manager; Janet Chevalier, Leonard Dattis, Robert Grenier, and Stuart Anderson, the advertising committee.

Of course, the seniors played an important part on the Reflector. Sandra Hayes was editor-in-chief, and assistant editors were Jacqueline Tebo and Judith Howe. Feature editors were Kathleen O'Hara, Rosanna Gaulin, Janet Chevalier, Maureen Fink, Beverly Anderson, Beverly Heinz, John Alex, and Paul Savageaux. Other members were Dorothy Vostok, Kathleen Paille, Eileen Tift, Ulla Stadin, Clara Dupre, Mary Holland, and Henry Plaud.

The Student Council had really done a wonderful job during the three years of our high school career, and this year we were proud to have Sandra Hayes as president, John Alex as vice-president, Mary Boire as secretary, Beverly Anderson as treasurer, and Paul Savageaux as representative of the Senior Class.

The boys were so good in basketball that Millbury entered the Clark Tournament and won an honorable mention award. The players were Joseph Magdziarz, Paul Savageaux, John Alex, and Robert Davis. The girls' losses were many, but they never gave up the fight. The senior members were Captain Mary Boire, Sandra Lowes, Mary Holland, Shirley Krasinski, Madeline Credit, Betty Lou Schunmann, Sandra Hayes, Heidi Krumsiek, Aldona Dubickas, and Janice Young.

Judith Malo was elected D.A.R. representative.

The big event of the year rolled around, the Senior Prom, and it was a tremendous success. Those responsible were Shirley Krasinski, Beverly Anderson, Robert Grenier, Mary Cullina, Maureen Fink, Nancy Maynard, Joyce Stewart, Patricia Bolafka, Robert Vaillancourt, Henry Plaud, Avis Girouard, Barbara Perry, Ulla Stadin, and Janette Herman.

When the annual Science Fair was held, the seniors had two winners. Sandra Hayes won third prize, and Robert Grenier won fourth prize. Other exhibitors were Rosanna Gaulin, Jacqueline Tebo, Aldona Dubickas, and Philip Arsenault.

In March Mr. Beaton announced that Ulla Stadin, Sandra Hayes, Jacqueline Tebo, Paul Savageaux, Janette Herman, and Madeline Credit were members of the Senior Honor Group. From these six honor students the four chosen for graduation speakers were Ulla Stadin, Jacqueline Tebo, Sandra Hayes, and Madeline Credit.

Not long after, the Class Day speakers were elected. Choices of the Senior class were the following: Prophet, Judith Howe; Giver of Gifts, Joyce Stewart; Historian, Judith Malo; Statistician, Nancy F. Maynard; Testator, Janette Herman; and Recorder of Omissions and Corrections, Robert Grenier.

In April, 1957, the Washington Club finally achieved its goal, and the members made the trip during spring vacation. The lucky students were Madeline Credit, Claire Beaudette, Elizabeth Schunmann, Janette Herman, Kathleen O'Hara, Judith Howe, Mary Cullina, Shirley Krasinski, Nancy Maynard, Beverly Anderson, Janet Chevalier, Maureen Fink, Sandra Lowes, Mary Holland, Leonard Dattis, Stuart Anderson, Frederick Molloy, Richard Pierce, and Eugene Kasavich.

The play, Mr. Co-Ed, was put on May 3, 1957, and the senior actors and actresses were Judith Howe, Jacqueline Tebo, Janet Chevalier, Beverly Anderson, Eugene Kasavich, Janette Herman, and Leonard Dattis.

We have finally come to the end of our four years in high school. We shall all go our separate ways, but we shall always remember Millbury Memorial High School and our many pleasant experiences as students there.

Class Prophecy

Well, I was finally on my way to the Moon to visit my classmates. How long I had waited for the opportunity! I settled back into my seat on the rocket ship and as I did so I heard the voice on the loud speaker repeat, "Rocket to Moon Service reporting again. Five minutes Earth time remaining until landing at the spaceport. Please fasten safety belts."

As I recognized the voice I thought, Dorothy Vostok certainly has an exciting job. I wonder how long she has been working for Rocket to Moon, Inc.

When I looked out of the window, the long green vegetation in the valley below almost frightened me. There was such an exciting atmosphere that I was sure I would enjoy my two-day visit.

As the ship skidded to a stop the co-pilot, John Wilbur, came into the cabin. He waved as he shouted to the ground crew headed by Paul Racicot. Ronald Snelling, Ken Moore, Richard Pierce, and Ellis Russell rushed to secure the ship. Everyone was shouting as the two stewardesses, Nancy Maynard and Beverly Heinz, ushered the passengers off the ship. As I walked down the steps I sighted Brenda Mannix, Madeline Lilley, Joyce Beauchamp, Nancy Cahill, and Patricia Fairbanks, who were waiting to escort the passengers to the waiting space cabs. These I found were driven by Harold Wood, Richard LeClair, Martin Gardner, and David Lewis.

While I whizzed along the street in a space rod driven by my guide, Noah Rice, the owner of the Okee Dokee Space Track, his stunt driver, Janet Chevalier, flashed by. She was on her way to pick up a shipment of furniture for her store in the central part of the city. Noah told me that he had employed Jane Brunell, Anne Brodeur, and Kathleen Paille to race for him every Friday night at the track. He told me that these expert drivers attracted crowds of people to observe their spectacular feats.

Suddenly I heard the loud roar of a trumpet behind me. The cab jerked to a stop at the side of the road. Mayor John Alex was on his way to the State House in his private space car driven by Leonard Dattis. Sitting opposite John was Jeanne Morin, who was busy taking dictation from him. Following in another car were Donald Dandro, David Green, William Genis, and Everett Grahn, who were playing a song they had written, "Flying Saucers". John seemed quite pleased, and he waved to me as they drove by.

Noah turned on the supersonic radio, and I heard the voice of one of my former classmates. "This is Ulla Stadin, your fashion reporter, once again, ladies. We're broadcasting to you over Station NOOM, 3200 on your dial. Our program is coming direct from the Jacqueline Tebo Sewing School, where we are observing the latest in fashions for evening wear on the Moon. Our models, Claire Beaudette, Janice Young, Mary Fontaine, and Sandra Lowes, have shown a number of exciting summer styles for you to wear on that special evening....."

Noah had changed the station by this time and was listening to Bob Davis report on the most recent games of the week. I learned that Robert Grenier, Eugene Kasavich, Joseph Magdziarz, Paul Savageaux, and James Rhodes, who were playing for the Moon Men, had beaten the Star Gazers 94 to 0 in the first game and 48 to 0 in the second.

Looking out of the window and observing the bright-colored buildings, I saw a sign that read; "Learn to Dance". I told Noah to stop. Upon entering the building I found the weird strains of a song filling the air. Sandra Hayes danced by in a bright green costume. Following her were Janet Herman, Janis Garrepy, and Barbara Perry, wearing the same kind of costume. They all waved as they floated through the door.

At 7:30 Earth time we pulled up in front of the largest hotel in the city, which was owned by millionaire Paul Little. The doormen, John Boulette and Francis Sestito, rushed over to meet me. In the lobby I met Shirley Krasinski, Mary Cullina, and Mary Holland, who were newspaper reporters. They were being rushed out of a recording studio by Madeline Credit, who had become private secretary for a famous singer. Madeline waved amidst the noise and closed the door with a loud bang. As I looked around the lobby I saw John Sweet working on a column of figures. I

thought of the wonderful times we had had in our bookkeeping class at Millbury High. He greeted me with a grin and motioned to Donald Cutting to take my luggage upstairs. When I had finished unpacking I went to bed, tired from the long journey.

The next morning I called the hairdresser to confirm the appointment that had been made for me previously. Jeanette Moore answered the phone. She had been employed as a receptionist for Heidi Krumsiek and Lorraine Millette, who had opened a shop three weeks after their arrival. Also working there were Janice Tetreault and Gale Robbins.

Noah met me in the lobby fifteen minutes later to take me for a tour of the city. Our first stop was at one of the major laboratories, where I met Phil Arsenault, Bob May, Ronald Giroux, and also Betty Schunmann, the only woman scientist on the Moon. These leading scientists were trying to find a vaccine to stop the disease which was ravaging Stu Anderson's farm in the northern hills.

After leaving the laboratory we stopped at the Moonerama, the largest shopping district on the Moon. There I saw Frederick Molloy, who worked in the grocery department. Constance McManus, Eileen Tift, Carol Provencher, and Avis Girouard, who were working in the clothing department, were having quite a busy time selling foreign creations from the planet Earth.

In another part of the building, the soda shop, I found Rachel Gaulin, Joyce Stewart, and Clara Dupre serving the many people there a delectable food called "moonburgers", which I found to be quite good.

After leaving the Moonerama we arrived at the Crater City College, where Judith Malo was President. She informed me that Carolyn Whitten was Professor of Law and that Patricia Bolafka was Professor of Business Science.

As Noah raced around a corner I heard the shrill whistle of a policeman. I turned to see Raymond Tremblay standing there talking to Kathleen O'Hara. Noah told me that she owned a small art gallery where Henry Plaud was chief attendant. He was conducting art classes to which several of my friends belonged.

Our next stop was at Crater City Hospital, where Joan Trottier, Maureen Fink, and Aldona Dubickas were on duty. Surgeon Rosanna Gaulin was being paged over the loud speaker to come to the operating room immediately.

After I had returned to the hotel to change, Noah brought me to the Blue Star Night Club, which was owned and operated by Beverly Anderson, who also played the piano. Appearing this evening was Lorraine Salois, commedienne, assisted by Mary Boire and Rosalie Cammuso, who were guest singers. Also making their first appearance were David Ducharme and Bob Vaillancourt, who were to do their impression of a television act from Station NOOM.

After the show, Lorraine Salois, who had made all my reservations for me, met me at the table. She told me that all my friends were doing well in their positions. After a long talk I returned to the hotel.

The next day I would leave for Earth. I fell into an exhausted sleep, thinking of all the wonderful things I would have to tell my friends back home about the seniors who had graduated with me in 1957.

Freedom--The Foundation of America

Let freedom ring! This has been the cry of nations all over the world for thousands of years, and right here in our own United States the people have been able to exercise the power of freedom to greater advantage than the peoples of any other country. Where in all this earth can you go and find the way of life so free as in America?

One of the first sights--and probably the most thrilling--as one of foreign birth looks upon this free land of ours, is that of the Statue of Liberty. How inspiring this symbol of freedom must be, especially to that one who has never experienced it. How wonderful he must feel when he knows he is coming into a country where we are all free to live our own lives, think as we please, worship God in the house of our own choice--and all without interference.

Freedom is not something that one generation can hand down to another. It has to be won by each man, and it has to be protected from those who would impair it. For instance, in time of war there is a great threat against freedom. Many people take advantage of a national crisis of this type to promote their own selfish interests by destroying the rights of others.

When we have freedom, we have the right to choose many of the things that we want. When a boy graduates from high school, a great many careers may seem attractive to him; yet, he is free to choose the one he would like best and the one that would be most interesting to him. The cost of the necessary training may handicap him a great deal, but at least he is free to try.

Here in our own United States we are able to enjoy the privilege of a free election, as few peoples of the world today enjoy. We are given the right to vote for the public officials of our own choosing who we think will be best suited for the job and will do the work well. If the people of Russia and other Red subjugated nations had the right of free elections, it would probably be possible to prevent the scourge of atomic warfare, as well as to liberate a vast multitude of people now deprived of their freedom of expression.

The four basic freedoms that we are able to enjoy are: freedom of religion, freedom of speech, freedom of press, and freedom of assembly.

In the United States, the government must permit full religious freedom. Congress is forbidden by the Constitution to pass any law concerning "an establishment of religion". We are all free to worship God according to our own belief and in our own way. We feel secure when we know that we are able to go to church with our family and thank God for the many blessings that have been bestowed upon us.

Here we can express our own opinions about subjects. The people are free to hold discussions about current topics, and there isn't always someone standing behind them making them say things that are against their principles.

Of course, we don't have the right to speak untruths about other people, for this could ruin the character and social standing of a person. Also, no one is allowed to utter words that may arouse danger to the country. Whether or not a statement goes beyond the limits of free speech is left to the judgment of a court.

Freedom of the press makes it possible for everyone to open his newspaper daily and learn the facts about events of national and international importance. The first Amendment to the Constitution provided that "Congress shall make no law concerning the freedom of the press." In this way the people cannot be deliberately kept from finding out the truth.

One of the stepping stones of establishing a free and happy country is the right of the people to assemble. The Constitution gives the people of the United States the right to hold peaceful meetings to petition the government. This freedom of assembly is one of the most cherished rights of free peoples.

What a blessed country we are living in! We should all be so thankful to the many men and women who have given their lives to preserve the freedom that is the property of us all. How proud we should always be to speak out in loud tones--"I am an American."

The Way of Life

During this time of graduation, there are many young people who will for the first time make the crucial decision of what they will do with their lives. Only time can tell whether or not these decisions are the right ones.

In a recent survey thousands of average American men and women were asked the question, "Have you ever wanted to live part of your life over again?" The results of this survey were that over fifty per cent said, "Yes,"--just why is not revealed. Which are the happier ones, which are the luckier ones--those who want to relive part of their lives, or those who are content with the way they have used their time in this world?

In our own futures we must not be easily satisfied with the lives we will lead. We should strive for better goals, and once we have attained them, set others. How can a man live successfully if he is staying in the same place? When something new and challenging is placed before us, we must be ready. Opportunity falls in everyone's path, but fulfillment is not to be gained by the person who merely steps around it.

Merely to sit back and look at the progress and advancement of this wondrous country of ours through the eyes of other great men will not bring this satisfaction into our lives. To see what these famous scientists, inventors, and citizens of the past and present have done for today's modern America should inspire us to do our share. We know the youth of today will be these great men of tomorrow. Therefore, we must choose our vocations cautiously, with much thought as to what our future roles will be.

Advances in science and our country's progress come through two requirements--patience and education.

What is patience? It is a matter of trying and never forsaking a project until it is completed. Dr. Salk, a well-known scientist, worked for months and months trying to find a vaccine to cure the dreaded disease of infantile paralysis. What if he had lost patience? How many more children would have their lives scarred by this affliction?

Education, the second requirement, is something offered to everyone in America. Why? Because the leaders and citizens of this country know how important it is that today's youth have a full background of knowledge to which they may refer when the opportunity arises. This wide background provides us with a shield of truth and understanding that enables us to do our best in any situation.

Someday someone will depend on us. Will we be ready?

To be capable of doing our utmost, our hearts and minds must be filled with an undying faith in God and our country. The mountain of success and happiness is rugged and difficult to conquer, but with the strength and courage that come as a result of this belief and trust in God, we can climb to the summit of that mountain.

However, while doing our part, we must not think only of ourselves. To achieve a peaceful and prosperous nation the citizens of America must work hand in hand. We must point our lives toward something outside ourselves--something to live for, something to live by. Suddenly we will find that our lives contain purpose and meaning.

God has a plan for each of us, but we must decide for ourselves how we must live. If we drop all morals to gain what we want, we have nothing. The road to a happy, pure life is rough, and only by living His way will it be worthwhile.

We will do the very best we can. The rest is in God's hands. He will take care of it. Then we can go through life with the calm poise and trust so beautifully expressed in these lines of Whittier:

"I know not where His islands lift
Their fronded palms in air;
I only know I cannot drift
Beyond His love and care.
And Thou, O Lord, by whom are seen
Thy creatures as they be,
Forgive me if too close I lean
My human heart on Thee."

We Came, We Saw, We Will Conquer!

The day has finally come. Graduation. This is the climax of twelve years of schooling.

As we look back over these twelve, unforgettable years, we realize that we have learned a lot more than just English, history, and math. Scholastically, we have learned that genius is 1 per cent inspiration and 99 per cent perspiration. As sports enthusiasts, we have learned to cheer a losing team as well as to boast proudly of a victorious one. Through participation in various extracurricular activities, we have learned it isn't who wins the game but how it is played. Working together as a class, we realized the necessity of cooperation and of contributing our share. Through the guidance of our teachers, we have learned how to learn. Yes, we have learned to cheer together, to work together, to learn together, and, therefore, to get along with one another.

For all this we humbly say thank you. Thank you, our loving parents, for giving us this beautiful school and its wonderful facilities. Thank you, our teachers, for teaching us even when we didn't want to learn. Thank you, God, for giving us so many, many blessings.

Now we are beginning a new chapter in the book of our lives. We are ending the old and beginning the new. We are entering the austere world of adulthood and we are afraid. Decisions will have to be met--important decisions that will chart the road of our lives. Will we make the right ones?

Most of us will be either going on to school, entering the service, or working in the business world. Wherever we go or whatever we do, we will be leaving our old friends behind and going forth into an unfamiliar world, a world of strangers. We must remember the valuable lessons learned in high school, but will we?

You, yourselves, are probably recalling the day in which you were confronted with such enigmas. You, therefore, can realize our anxiety and our apprehension.

We wonder what the future will hold in store for us. Sometimes we forget our new role of maturity, and we dream. We dream of conquering new heights and of acquiring great fame for some ingenious endeavor! When this bubble pops and we are brought back to reality, it is comforting to remember Milton's gospel that "they also serve who only stand and wait".

Whatever our destiny, we have one eternal source of strength--our faith. When our problems seem unbearable, our situations hopeless, and when we are lonely, let us recall the words of Jesus Christ:

"Come to me, all you who labor and are burdened, and I will give you rest. Take my yoke upon you, and learn from me, for I am meek and humble of heart; and you will find rest for your souls, for my yoke is easy and my burden light."

With such a strong background as our faith to sustain us, our loved ones to encourage us, and our desire to succeed, we hope to be victorious in this struggle with life. We cannot fail; we will conquer.

Sandra Hayes

The Bridge Builders

This is the story of a bridge--not made of boards and steel, but of ideas and hope. This bridge is called home life. As we each walk down our road of life, we will all at one time or another come to a break in the road. The way will be dangerous because the chasm of doubt is deep. At these times, only the ideas imbedded in our minds from our home life will show us the way. Only the lessons taught us there will shine forth and help us to continue when the road seems impassable.

Home life isn't the kind of home you have or what your income is. It's not the year of the car you drive or the type of television set you own. Home life is that kindness and understanding that only parents can give their children. It's religion, education, and love rolled into one.

We often hear our parents talking about the good old days, and we wonder what was so good about them. Surely, they didn't have half the conveniences we have today. But yet, without these conveniences, they had something more important. Families used to sit down together and play games. They used to go for long walks and on picnics. No one had to hurry home to watch a television program, and everyone enjoyed himself.

When the father came home from work, he sat down to have supper with his family. They ate a meal that the mother had prepared during the afternoon. This was the most important part of the day--the time when they bowed their heads to thank God for their blessings.

In our modern world the decrease in the value of the dollar along with higher standards of living has made it necessary for some mothers to work. If there are children in the family this creates a big problem in their upbringing.

Consider the plight of the children in a family where both the mother and the father work, and the father has an extra job. In this house the evening meal leaves much to be desired. The father, just leaving for work, and the mother, just returning, are too tired to enjoy their children's antics. After hustling her husband off to work for the second time in one day, the mother places the children in front of the television set so they won't bother her.

The only love and understanding that these children know is seen on television. Their heroes become the "bad guys" and the "good guys", instead of their father. No wonder juvenile delinquency is increasing, and mental hospitals are overcrowded. Parents push themselves too hard to give their children the things they never had, when they should be giving them what they did have--love and understanding. These children, deprived of these two essentials, become obsessed with false ideas of good and bad.

How will we, the parents of tomorrow, solve this problem?

We must learn that the welfare of our children is more important than the material things that we want for them. But most of all, we must realize that our children can't take the television, the new car, or the beautiful clothes with them through life. They can only take the love and understanding that we give them.

If we realize all these things, when our children reach that break in the road, they will be ready for it. They will remember their home life, and the lessons taught them there. These lessons will form a bridge that will guide them across the chasms of life.

Then, we, like the man in this anonymous poem, can be called THE BRIDGE BUILDERS!

An old man, going a lone highway,
Came at evening, cold and gray,
To a chasm, vast and deep and wide,
The old man crossed in the twilight dim;
The sullen stream had no fear for him;
But he turned, when safe on the other side,
And built a bridge to span the tide.

"Old man," said a fellow-pilgrim near,
"You are wasting your strength with your building here;
Your journey will end with the closing day,
You never again will pass this way.
You've crossed the chasm deep and wide,
Why build you this bridge at even-tide?"

The builder lifted his old gray head,
"Good fellow, in the path I have come," he said
"There followeth after me today
A youth whose feet must pass this way.
This chasm, that has been as naught to me,
To that fair-haired youth may a pitfall be.
He too, must cross in the twilight dim.
Good friend, I am building this bridge for him."
